

# Garden Romance

CREATIVE DESIGN AND DÉCOR BY ANGELA PROFFITT

PHOTOGRAPHY BY KRISTA LEE PHOTOGRAPHY

VENUE: CHEEKWOOD

**FOR A GARDEN ROMANCE** wedding reception, Cheekwood has all the elements for an evening of elegance and style. Cheekwood is the epitome of southern charm and class. The courtyard is the perfect location for family and friends to celebrate the bride and groom's wedding reception.

**Design and Floral Concept:** The color palette is made of navy, apple green, gold, ivory, white and champagne. The flowers are a mixture of hydrangea, white roses, peonies, ranunculus, and ivory spray roses. The design is classic, traditional, and whimsical.

**Table and Reception:** The style was southern elegance with a timeless flare. Surrounded by natural and neutral colors, the tables were lush with ivory and white garden flowers. The illumination from the floating and pillar candles in cylinder vases added warmth to the design of the tables. The tables were adorned with lavish and chic sparkly table linens. Beautiful cream colored draping framed the courtyard.

**Lighting:** Lighting is one of the most important elements in creating a mood and style at an event. The color scheme for this evening's lighting was diffused whites and amber. Lighting adds to the elegance and romance of the evening.

**Cake:** The five-tier cake was a focal point at the reception. It sits on a square mirror top table surround by white peonies. The color palette is off white that reflects sheer classical elegance.

**Paper Products:** The menu cards and table markers are a heavy card stock in a neutral color with a gold sequins background and black edging.
